

STEP BY STEP GUIDE ON INSTALLING METAMASK AND WORKING ON A TEST NETWORK

STEP 1: Installing MetaMask to your web browser

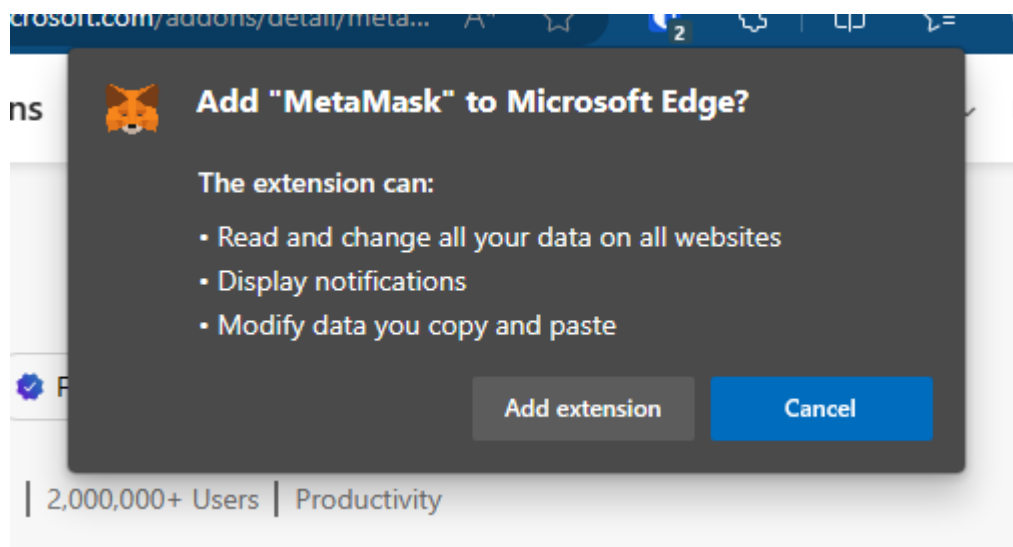

1. Visit the MetaMask website by going to <https://metamask.io/> on your preferred web browser

2. Click on the **Download for** button that corresponds to the browser version you are using
3. Doing so will redirect you to the **Add-ons** page where you can add the extension to your browser

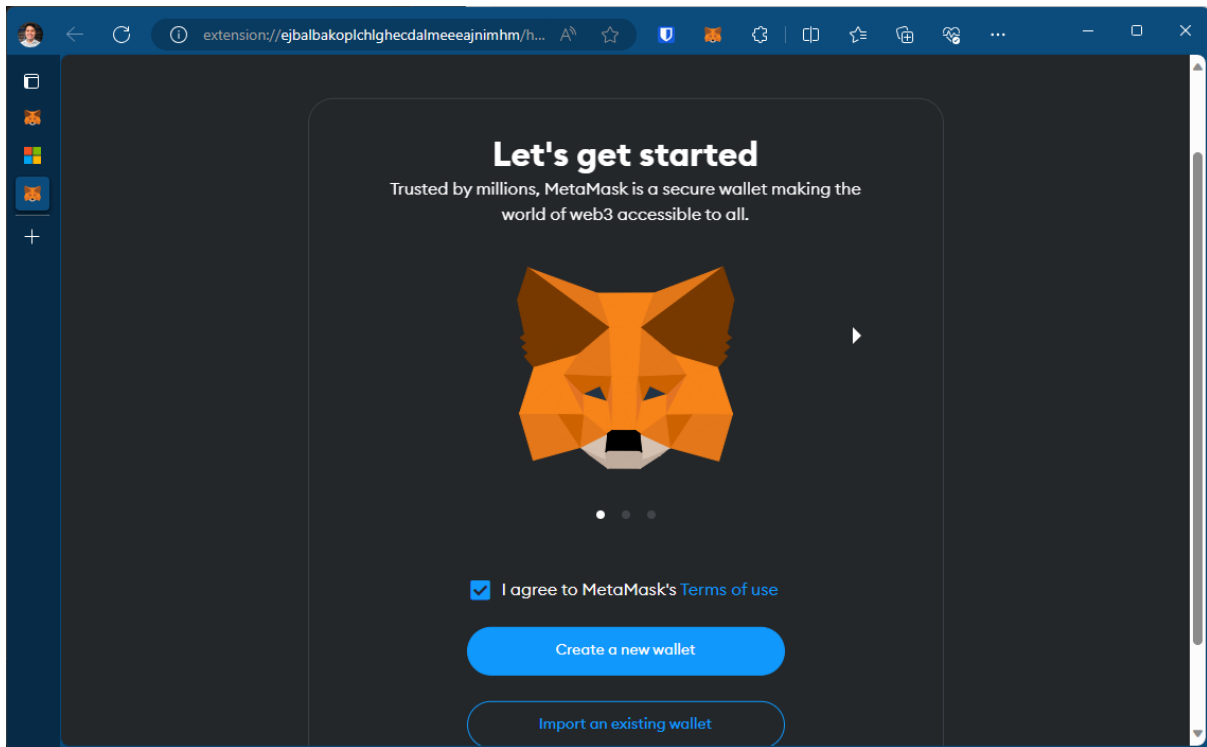

4. Accept the prompt message that appears by clicking on **Add Extension**

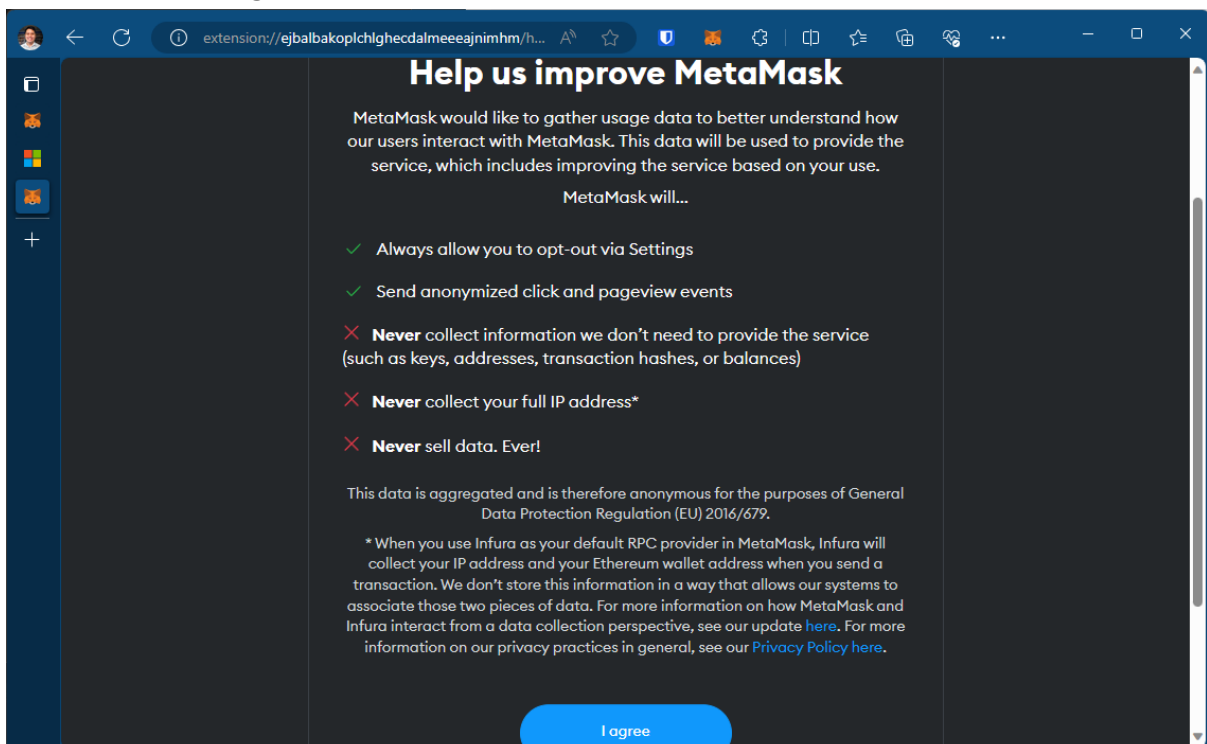

5. MetaMask will now be downloaded onto your web browser

STEP 2: CREATING YOUR METAMASK ACCOUNT

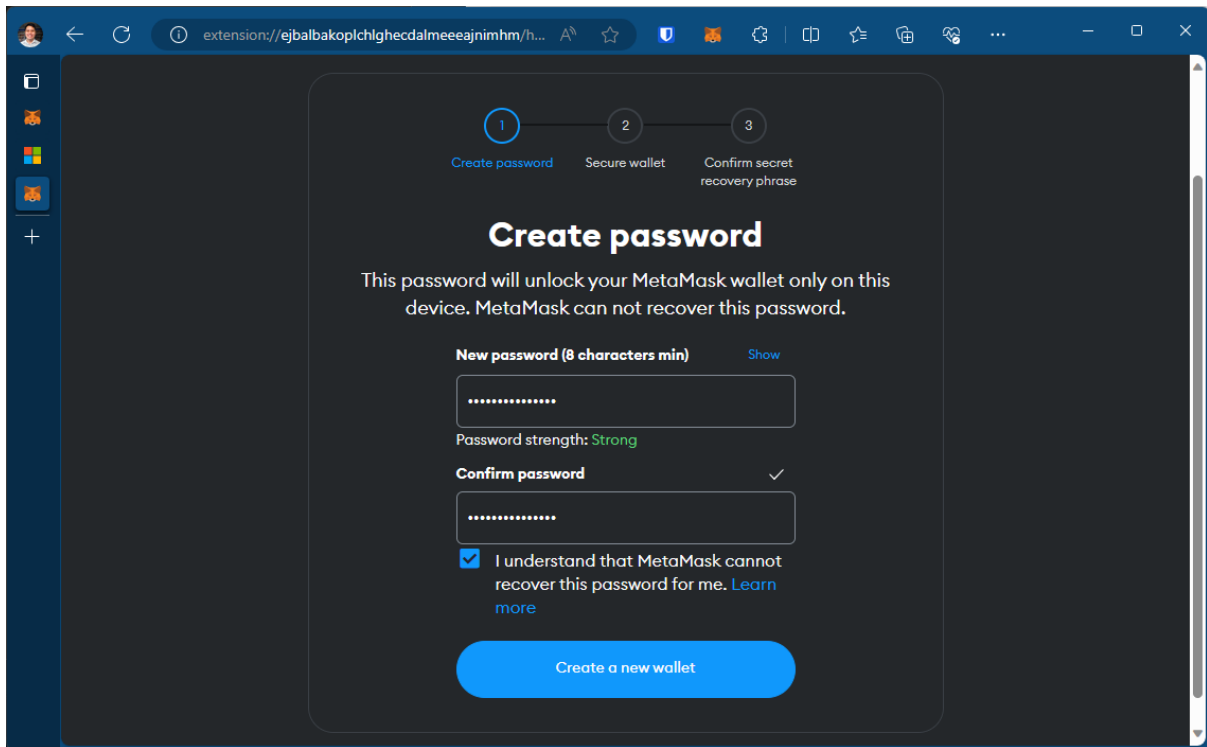

1. Agree to the terms of use, and click on **Create a New Wallet**

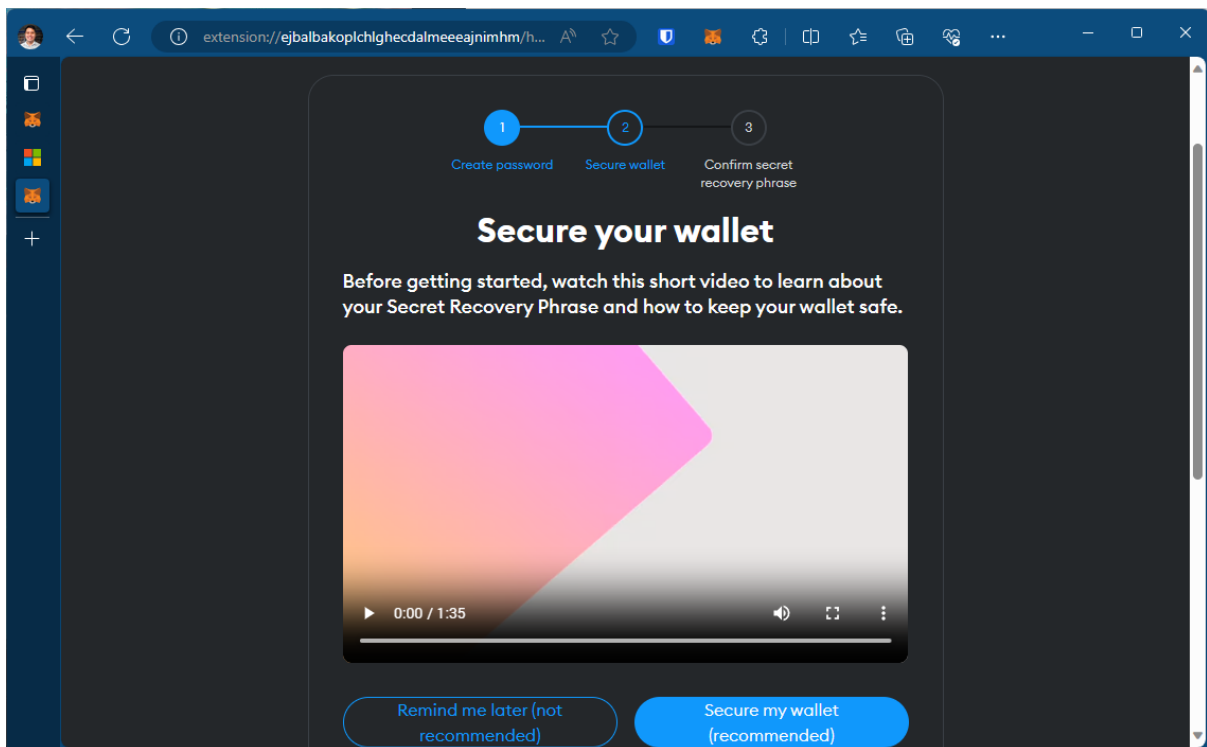

2. Click on **I Agree**

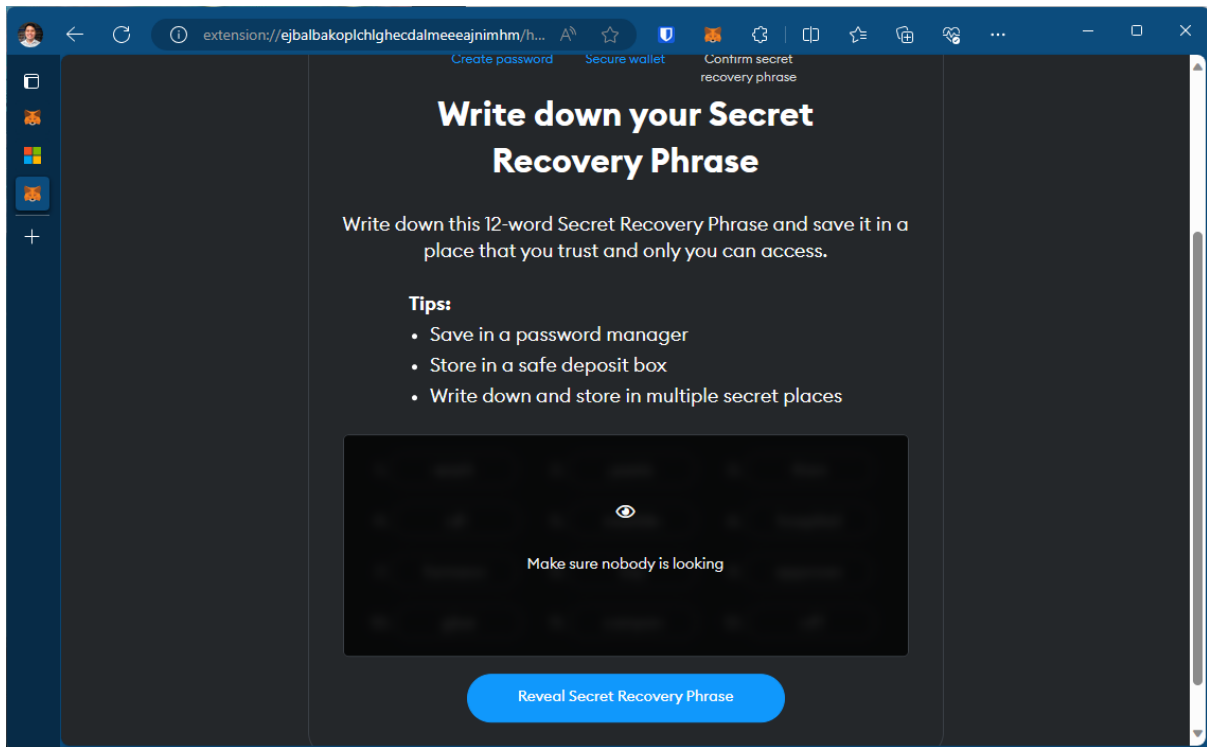

3. Input your password twice. Please take note of your password, as there is no way to reset this in the future. Click on **Create a new wallet** once you are done.

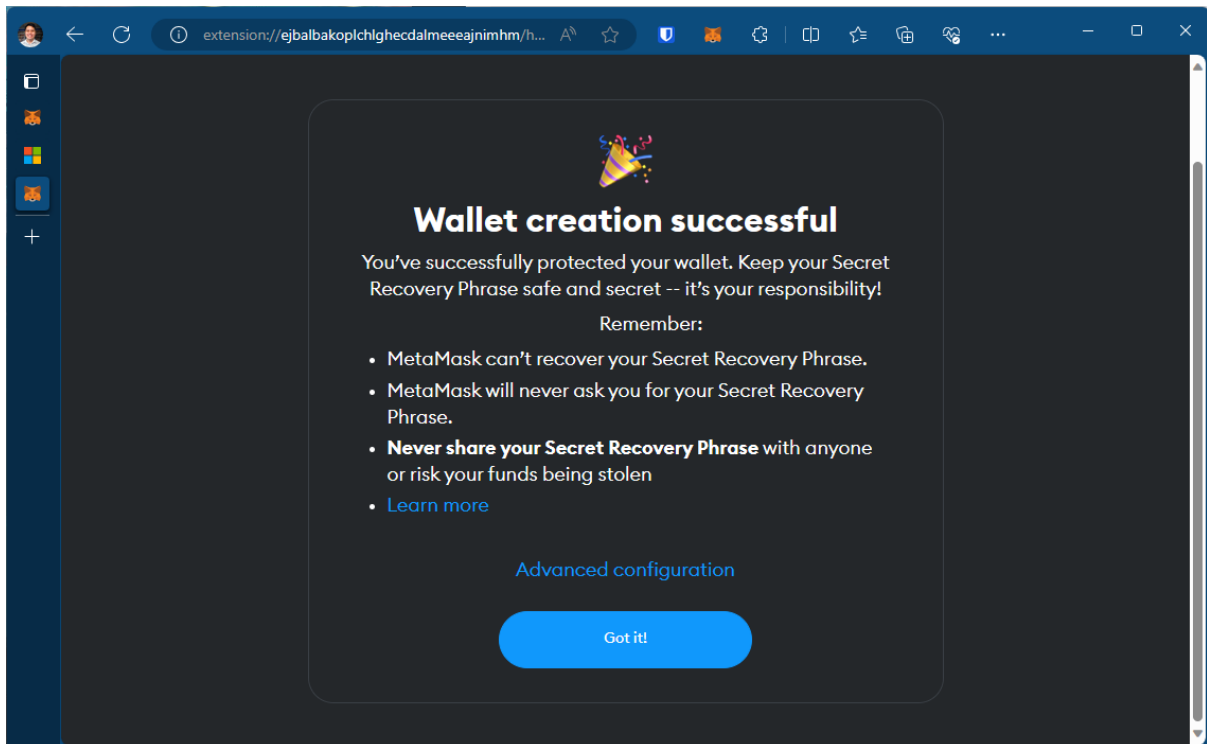

4. Click on the **Secure My Wallet (Recommended)** button to secure your wallet. This will allow you to be able to recover your wallet in the future

5. This will give you a 12-word Secret Recovery Phrase used to recover your account. Make sure to back this up in a secure location, preferably by writing this down and keeping it somewhere safe

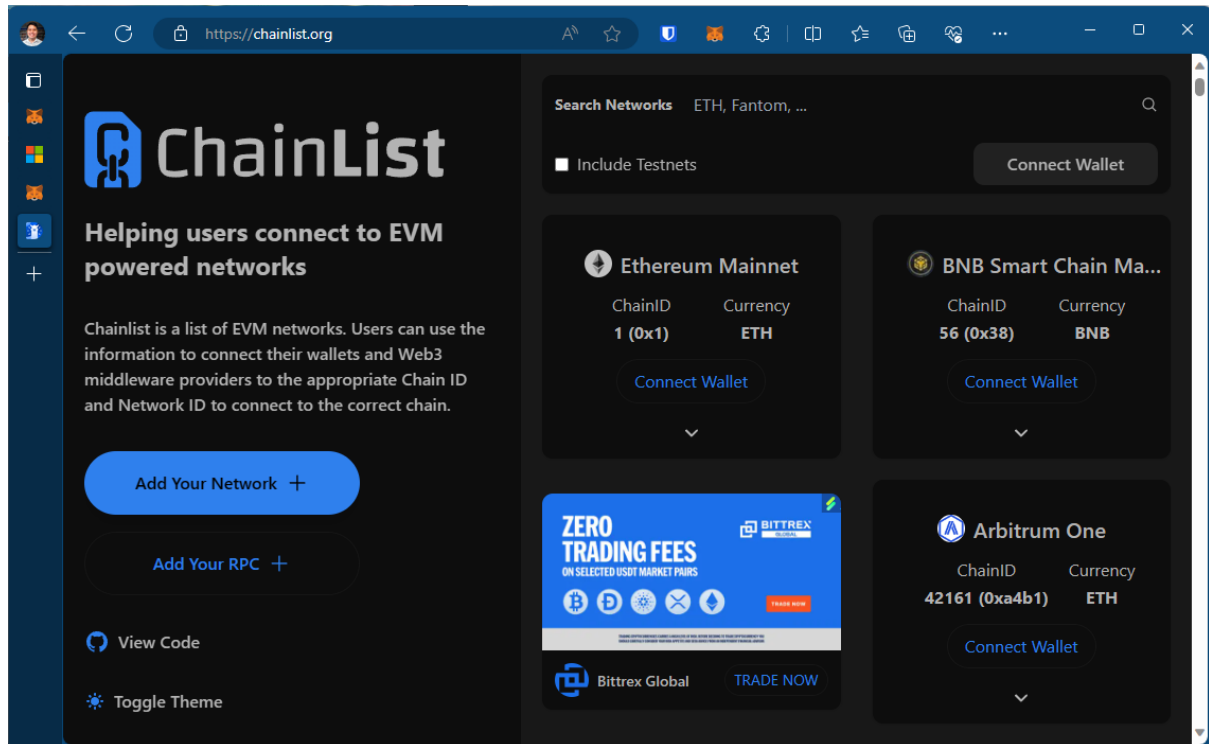

6. When you reveal the Secret Recovery Phrase, you will be asked to input some words as a security measure. Input the missing words to be able to proceed and click on **Next**.
7. When you have successfully created your wallet, you should see the following message:

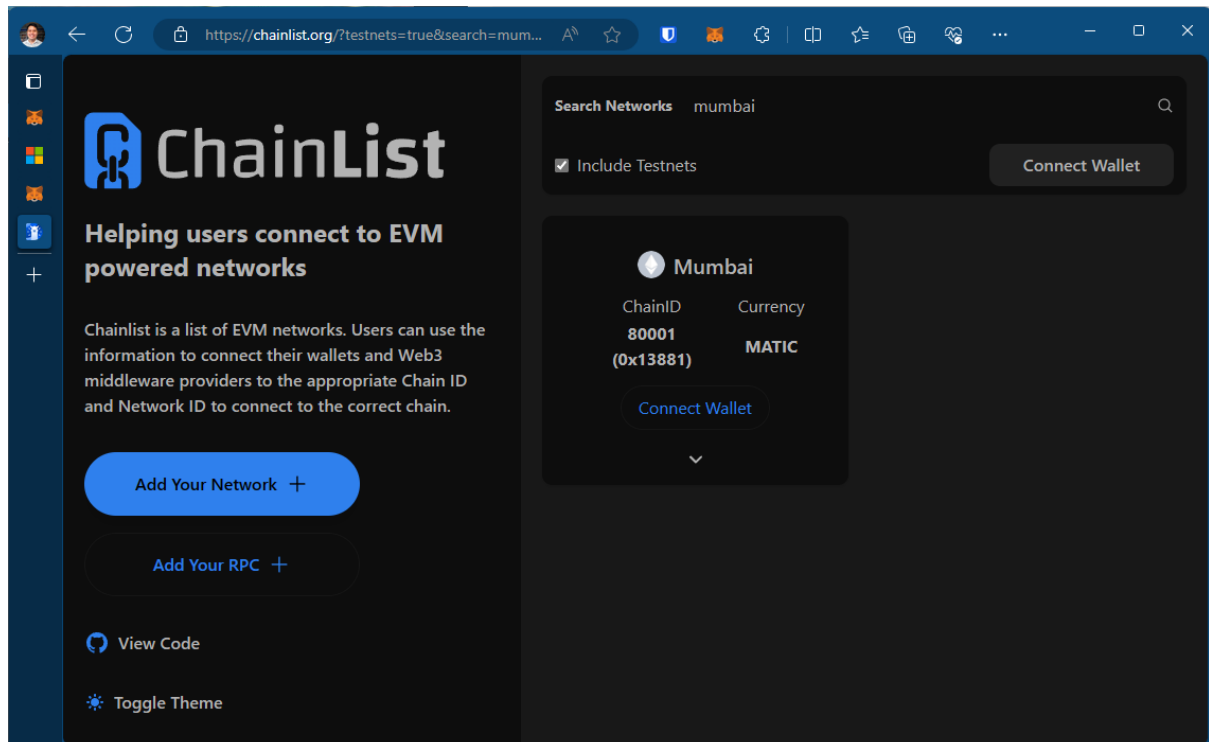

STEP 3: ADDING A SMART CHAIN TEST NETWORK (E.G. MUMBAI TEST)

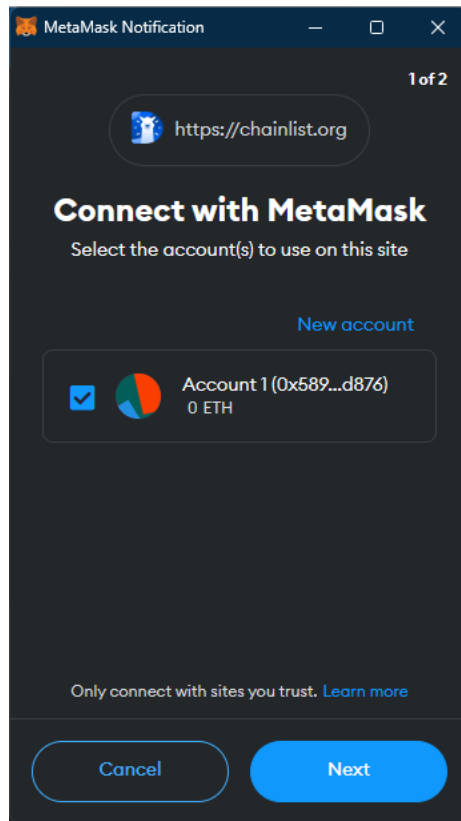

- Visit the website <https://chainlist.org/> to be able to attach a test network for our wallet

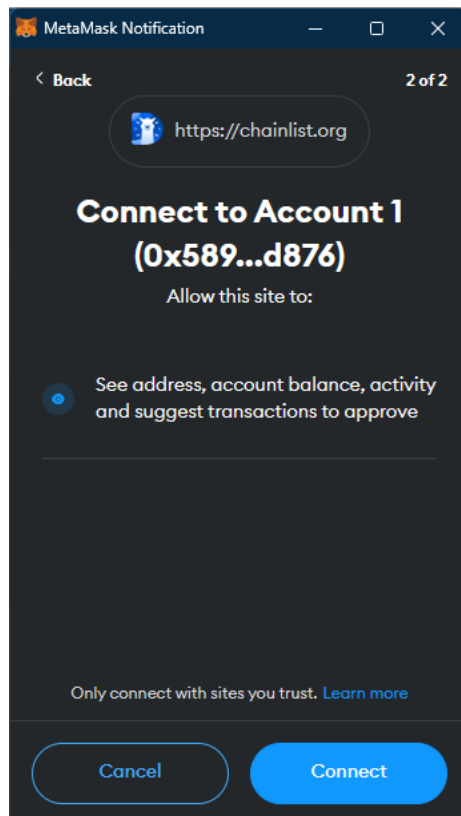

- Search for **Mumbai** and make sure that **Include Testnets** is checked

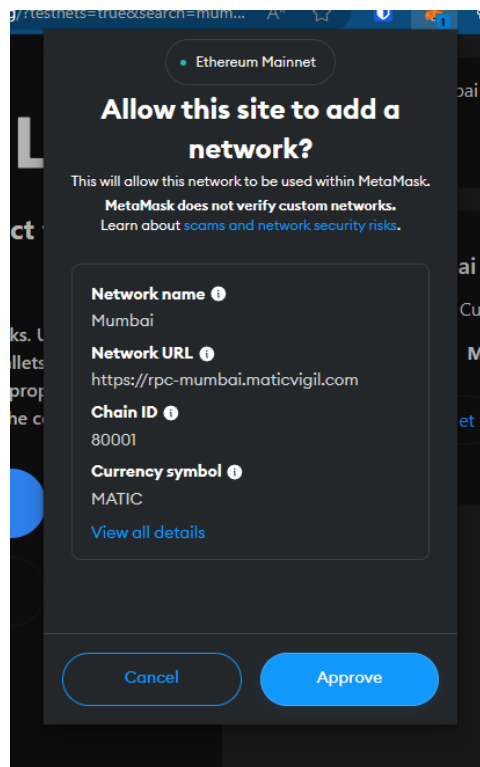

- Click on **Connect Wallet** under Mumbai, and this should open up **MetaMask** and click on **Next** within MetaMask

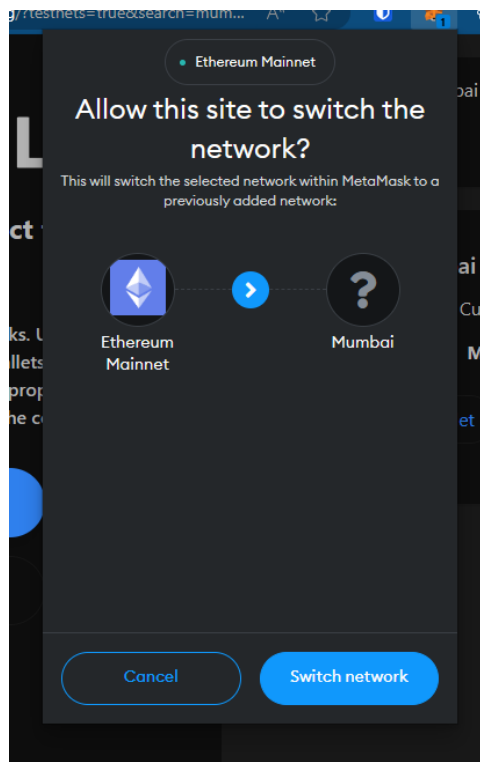

- Click on the **Connect** button to connect this to your wallet

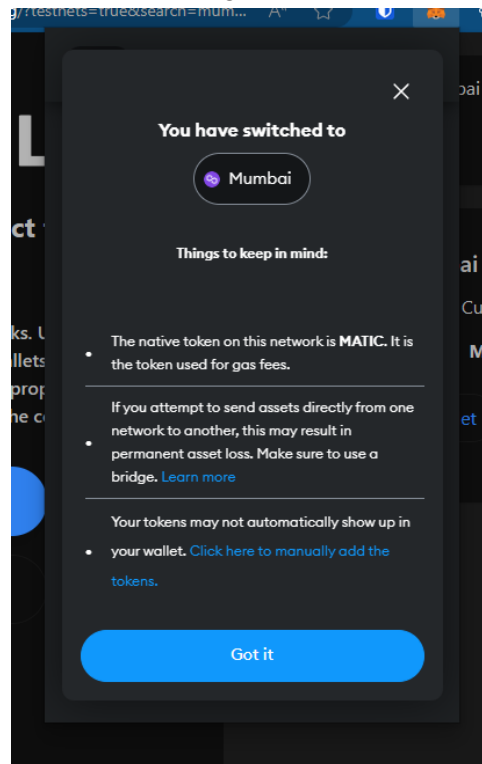

- Click on the **Approve** button to allow the site to add a network

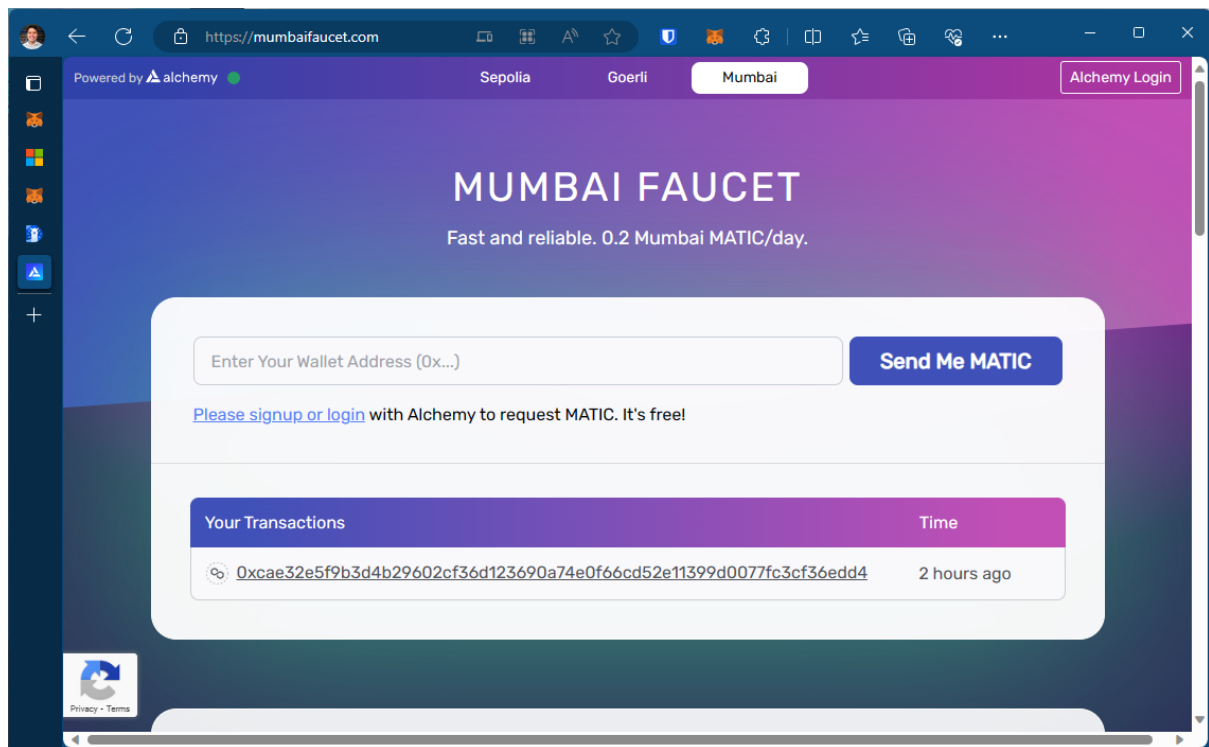

- Once the network has been added, click on **Switch Network** so that the **Mumbai** network is selected

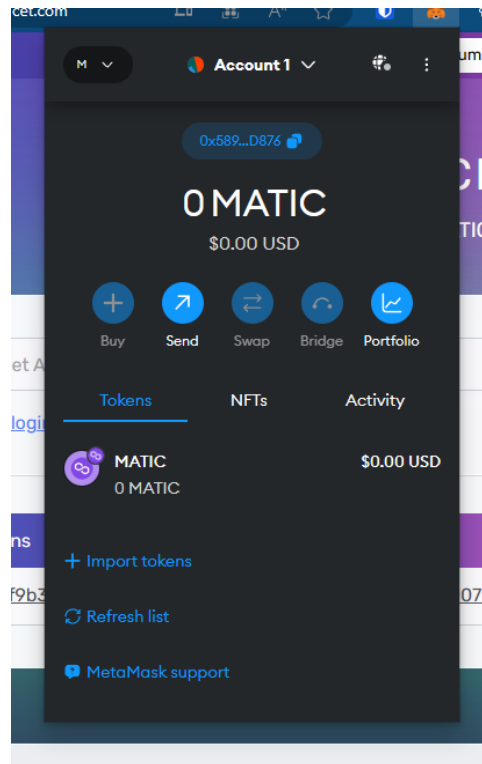

7. Click on the **Got it** button to finalize adding the network

8. Finally, we will add some funds to our wallet. Go to <https://mumbaifaucet.com/>

9. To get your wallet address, click on your MetaMask extension and click on the copy icon (the blue two files icon) on top of the **0 MATIC** text.

10. Once you have copied your wallet address, paste this in the field in mumbaifacet.com and click on **Send Me Matic**
11. Congratulations, you have now put funds into your wallet to be able to use in testing and development!
